

# BREW with the crew

AT STOCKMAN'S RESTAURANT

Resilient Control & Instrumentation Systems (ReCIS), in collaboration with the Institute of Electrical & Electronics Engineers (IEEE) and the International Society of Automation (ISA), would like to invite anyone interested to "Brew with the Crew," an after-work event that will take place every third Thursday of the month at Stockman's Restaurant in Idaho Falls (1175 Pier View Drive – Snake River Landing). The purpose of the meetings is to allow opportunity for instrumentation, control and intelligent systems researchers and practitioners to interact with others in their community, both inside and outside of INL. In this informal forum, people are not required to provide a documented presentation, but instead to share the nature of their research and interests and to possibly include some interesting stories along the way.

Meeting topics are scheduled as shown below. The brewing will begin at 4:30 p.m. with the topical discussion starting at 5 p.m. and adjourning around 6:00 p.m. Finger food will be provided to keep the stomachs from growling.

March 17	Ken Rohde	Vehicle to Infrastructure Integration (V2I)
April 21	Andy Beasley	KAERI Ki-Jang Research Reactor
May 19	Michael Haney	Seeing Clearly Through the Fog of War
June 16	Idaho Falls Power	History and Current Modernization Activities
July 21	Eric Dufek	Li-ion Batteries: Understanding Performance Boundaries
August 18	N/A	<a href="#">Resilience Week</a> – Chicago, IL
September 15	Matthew Hudspeth	Body Armor Fiber Behavior
October 20	Ryan Hruska	Social Network for Infrastructure
November 17	Kurt Derr
